

# How to Design and Create a Commercial Aircraft Radar Receiver and Decryptor

Nicholas Pease

# Outline

- About Me
- Five Guiding Principles
- My Project
- Plans after High School
- Conclusion

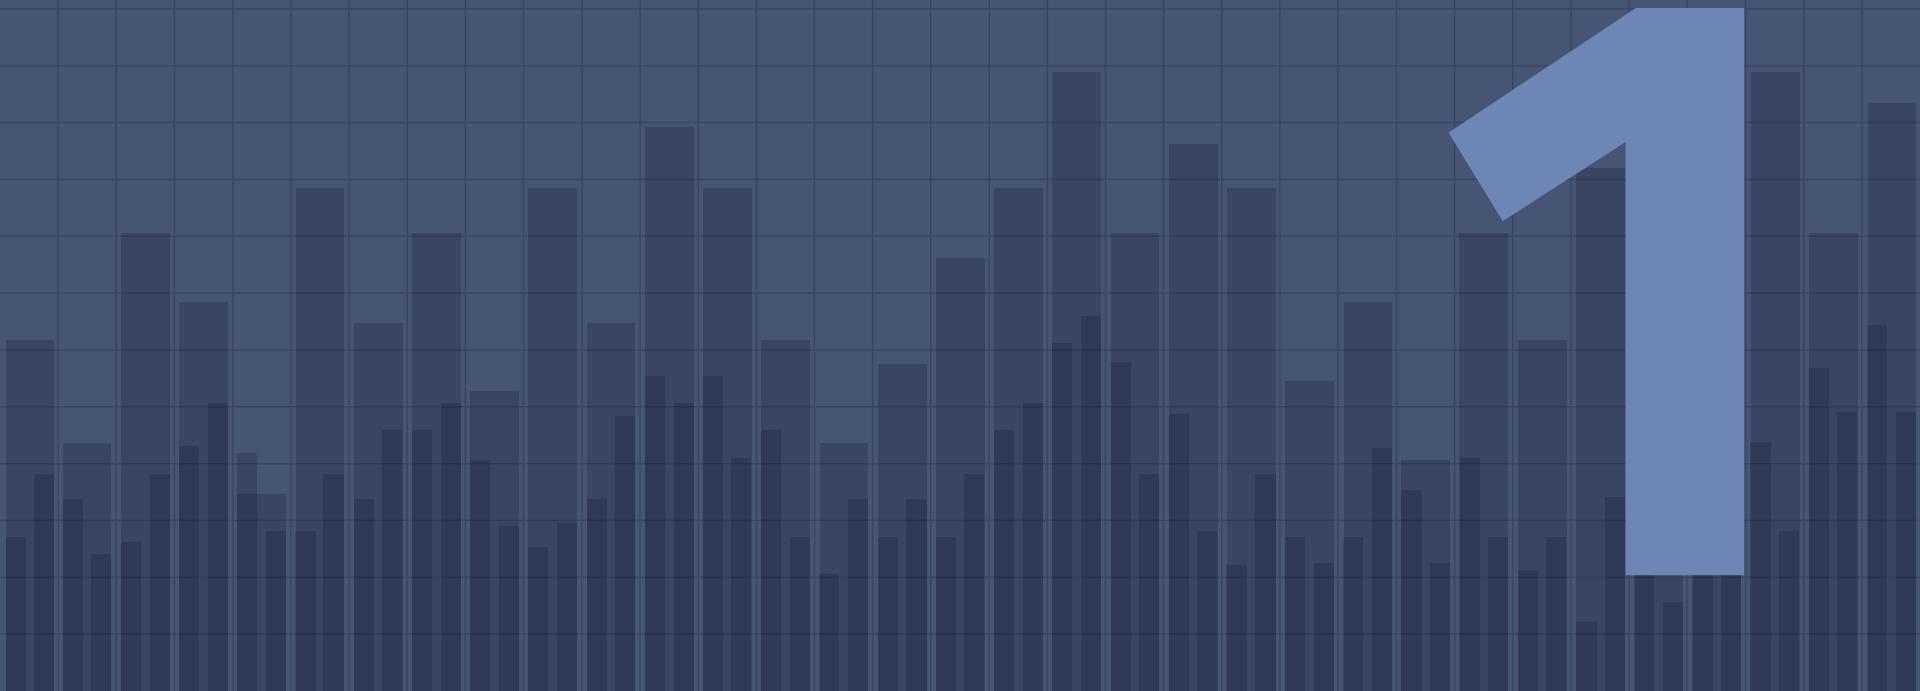

NOAA Satellite Pass – 4/18/2020

# About Me

- JROTC Battalion Commander
- Treasurer of National Honor Society
- Aubuchon Hardware Sales Member
- Avid Programmer and Developer

# Guiding Principles

# Independent Learner (2.1, 2.3, 2.4)

- Employed since March 2019
- Working in hardware gave me room to learn
- Learned much about plumbing, electrical, etc

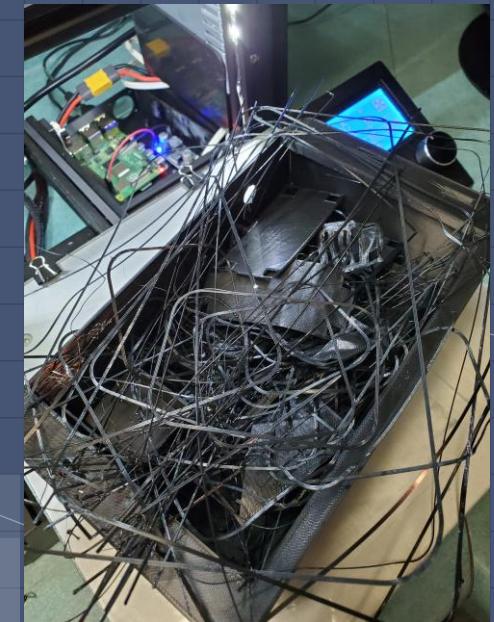

# Clear and Effective Communicator (1.2, 1.4, 1.5)

- Coordinated the *Climb to Remember*
- Communicated with 10 other hiking groups
- Goal: Coordinate simultaneous hikes on all 14 mountains over 4000' in Maine

# Creative and Practical Problem Solver (3.1, 3.4, 3.5, 3.6)

- Created ADS-B reception and decoding device
- No guide existed; Self developed and planned
- Had a few failures along the way

# Responsible and Involved Citizen (4.3, 4.4, 4.5, 4.6)

- Worked reporting voting totals on Election Day
- Economic literacy at work
- Ran the 2019 Giving Tree Program

# Integrative and Informed Thinker (5.1, 5.2, 5.3)

- Sophomore year science fair
- Analyzed over 550 lines of GPA data and 130 lines of Survey data
- Compiled data from 5 different local schools

Science Fair Data

Gender	Grade	GPA Term 1	Averaged Grade

# Senior Project

2

\$532.7

Total project cost

16 Months

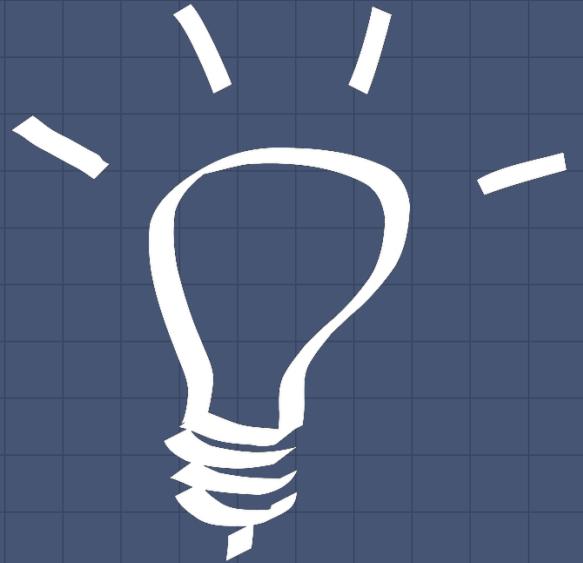

From original emails to project completion

58,224+

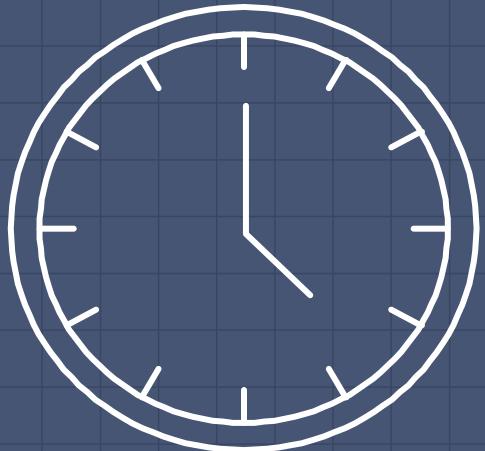

Total Lines of Code

# The Idea

Design and build a completely portable,  
ADS-B reception and display device and  
develop the software to run it.

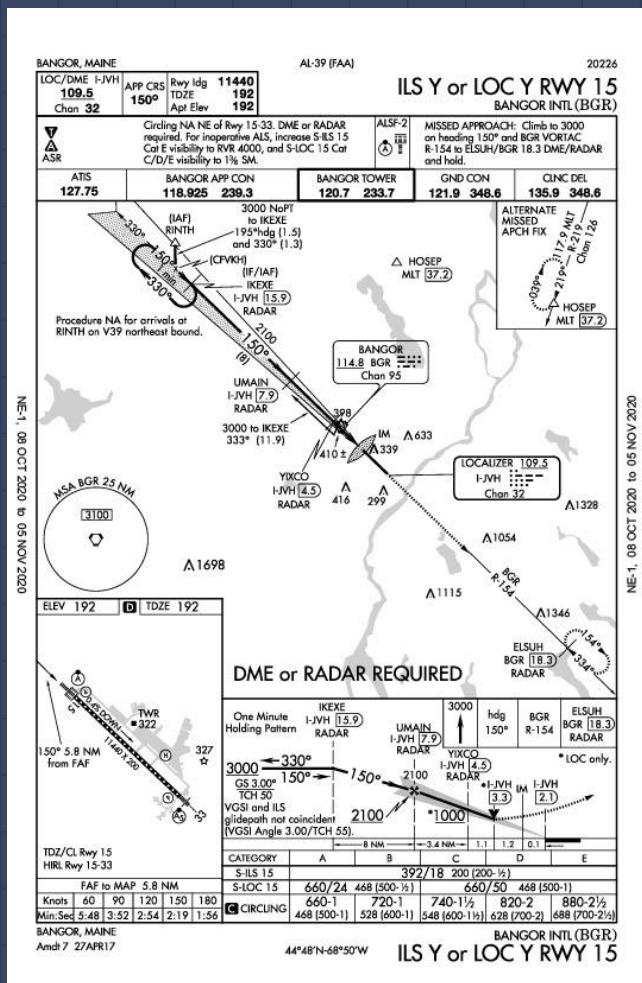

# Backstory

There were 4 major components I wanted in a capstone project:

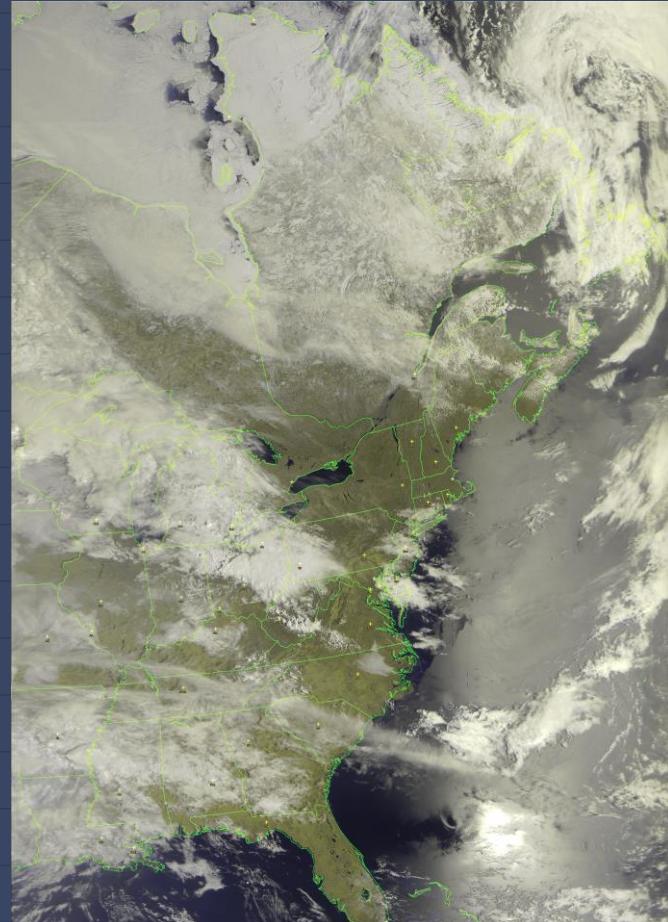

# Aviation

- Love of general aviation
  - On the scanner, listened to planes fly
  - Tracked positions over radio
  - Learned to read VFR and IFR airport charts

# Signal Decoding

- Received APT and LRPT transmissions from weather satellites
- Designed antenna myself for orbital polarization
- Used widely available software and hardware

Russian Meteor M2-2 Satellite Image  
Received 4/14/2020

# Software Engineering and Development

- Began as simple webpages when I was 12
- Expanded to various Python and NodeJS bots
- Created various web applications

First Computer I Coded On  
Windows 98 – Circa 1998  
Running Satellite Tracking Software

3

# Hardware Design and Development

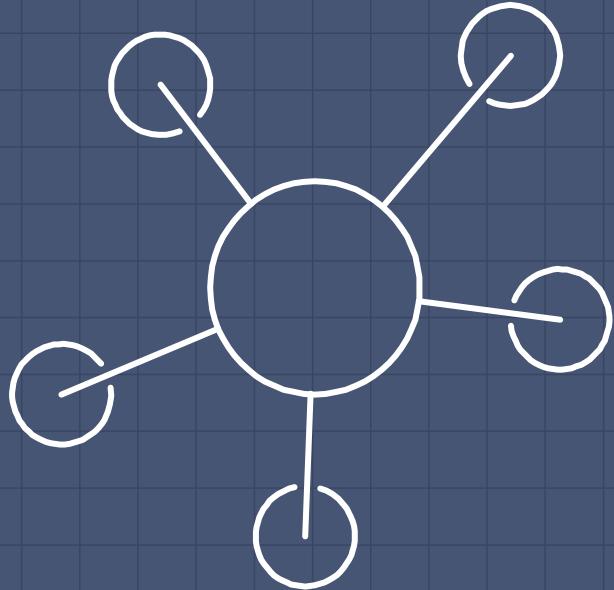

- Became interested in later years
- Modified police scanner
- Added LED's and RPI to 3D Printer

Modified Uniden Bearcat BC75XLT  
Portable Police Scanner  
Added Dipole and Base Station

# The Science

The science of how my project works

# What is ADS-B

- Automatic Dependent Surveillance – Broadcast
- FAA Replacement for Radar Stations
- Federally required since January 2020
- Provides location and position updates to ground stations and other aircraft

nBits	Bits	Abbr.	Name
5	1 - 5	DF	Downlink Format
3	6 - 8	CA	Capability (additional identifier)
24	9 - 32	ICAO	ICAO aircraft address
56	33 - 88	DATA	Data
	[33 - 37]	[TC]	Type code
24	89 - 112	PI	Parity/Interrogator ID

Type Code	Content
1 - 4	Aircraft identification
5 - 8	Surface position
9 - 18	Airborne position (w/ Baro Altitude)
19	Airborne velocities
20 - 22	Airborne position (w/ GNSS Height)
23 - 27	Reserved
28	Aircraft status
29	Target state and status information
31	Aircraft operation status

A  
D  
S  
B

**AUTOMATIC:** transmits information with no pilot or operator input required, twice per second.

**DEPENDENT:** position and velocity vector are derived from the Global Positioning System (GPS)

**SURVEILLANCE:** a method of determining position of the aircraft, in real-time.

**BROADCAST:** transmitted information available to anyone with the appropriate receiving equipment.

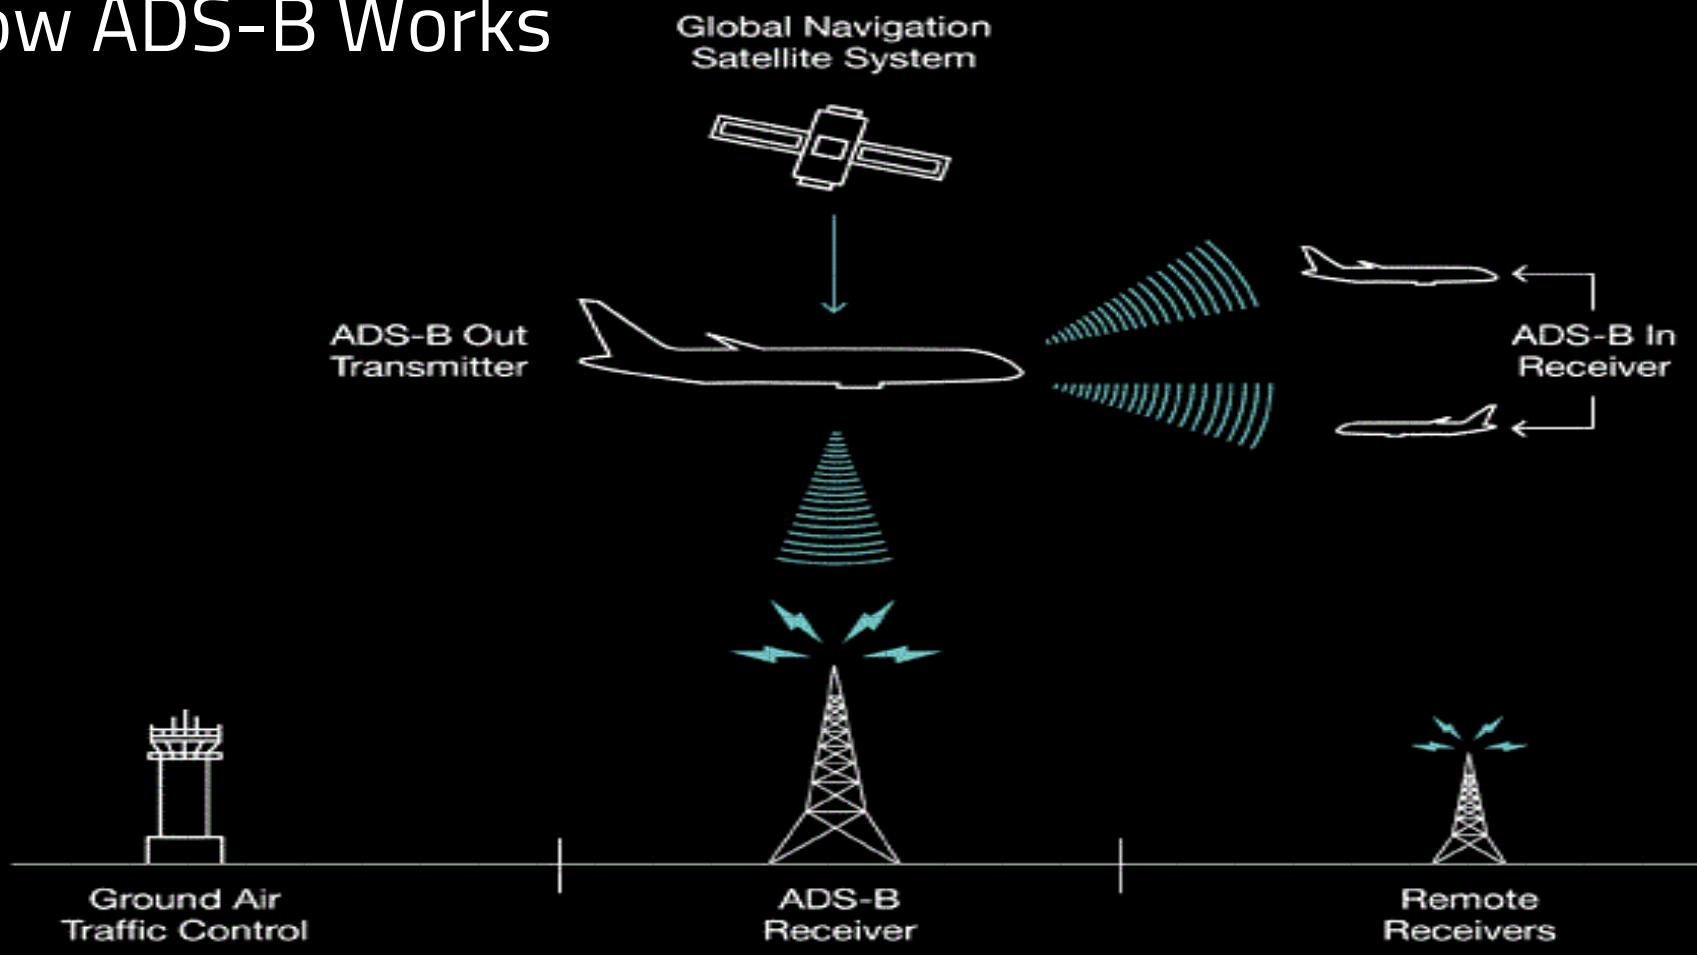

# What does ADS-B Do?

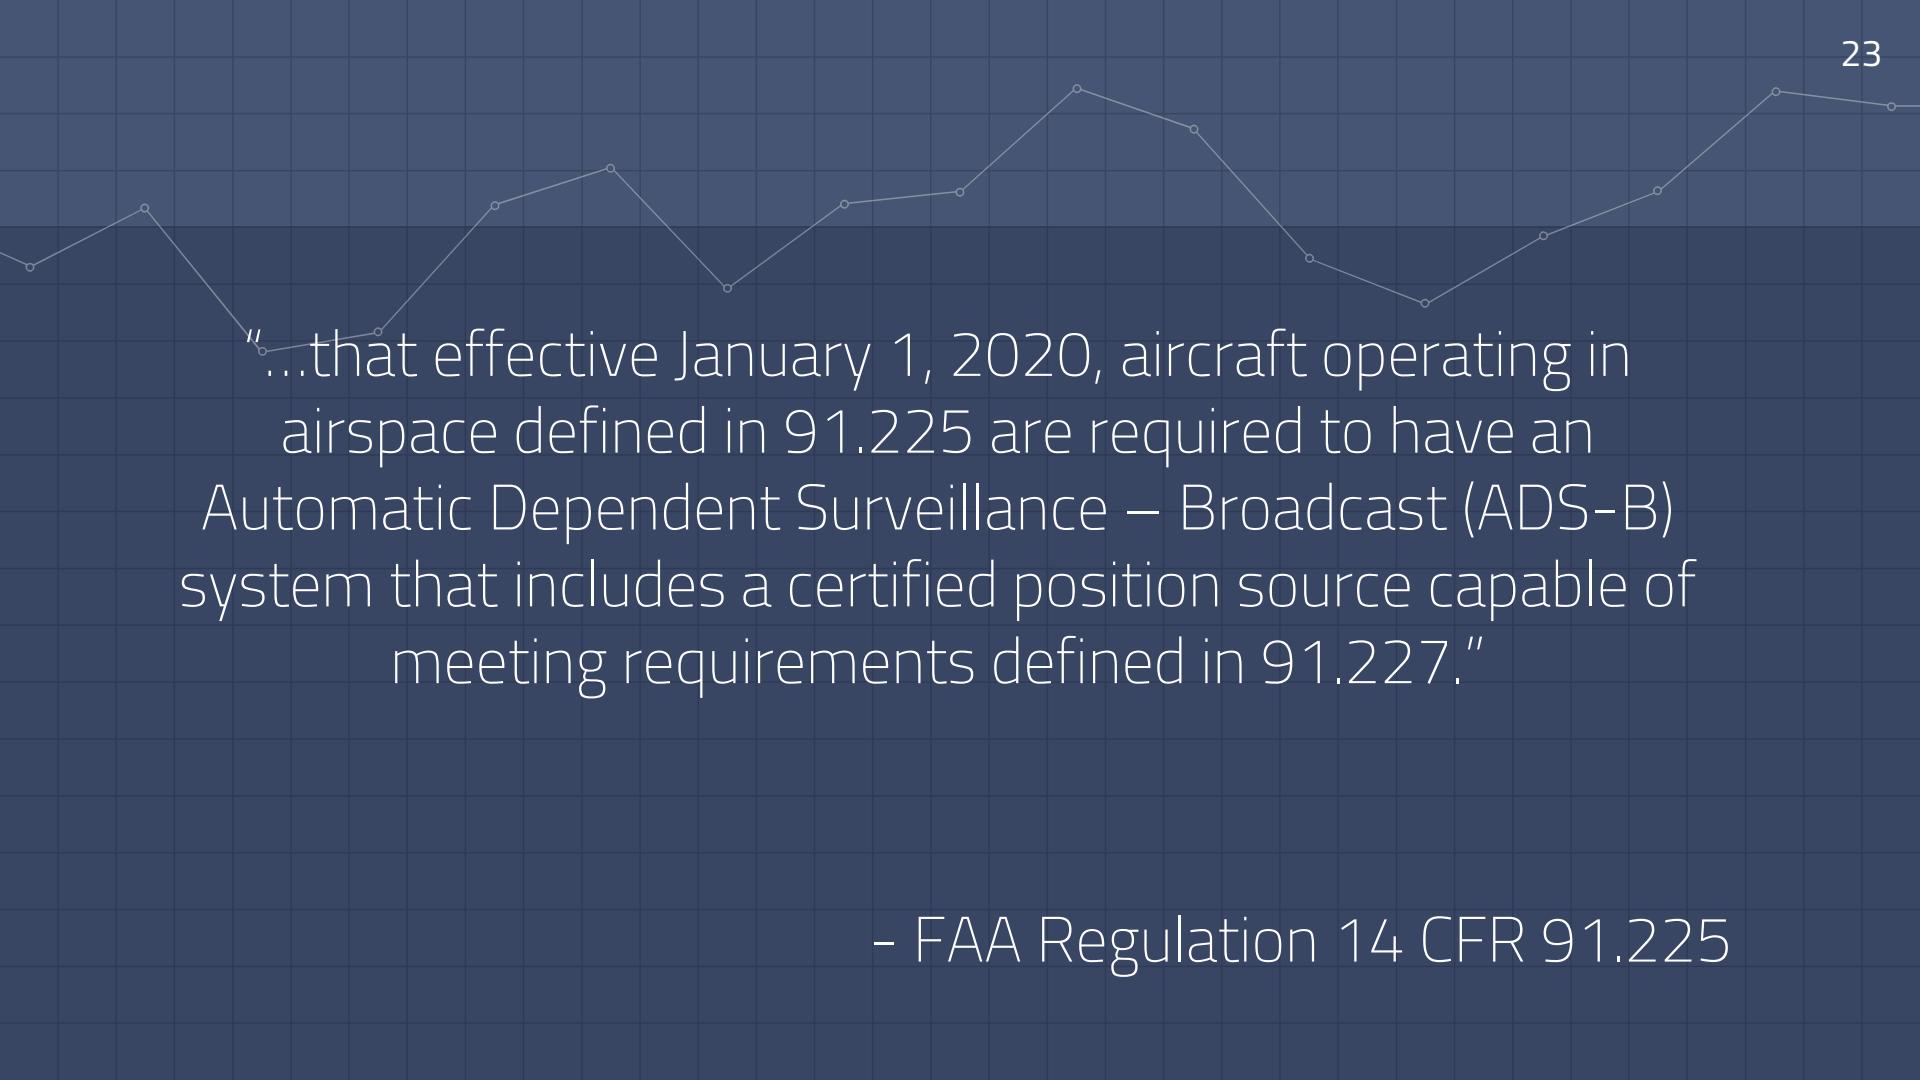

- Replacement for conventional radar systems
  - Provides regional airports and ARTCC with position data
  - Allows airports and air traffic control accurate timely data

# Example Air Traffic Control Screen

# How ADS-B Works

"...that effective January 1, 2020, aircraft operating in airspace defined in 91.225 are required to have an Automatic Dependent Surveillance – Broadcast (ADS-B) system that includes a certified position source capable of meeting requirements defined in 91.227."

- FAA Regulation 14 CFR 91.225

# How My Device Works

Step 1

Aircraft flies into radio range (200NM)

Step 3

Aircraft transmits periodic surface position

OR

Aircraft continues transmitting more frequent heading and speed updates. Device logs these and ARTCC “interrogates” airplane for position

Step 5

Updates position of aircraft

Step 2

Device logs aircrafts ICAO address and waits for positional data

Step 4

Device logs current GPA coordinates, speed, and heading and displays on map

# The Project

With those 4 components in mind,  
And the science feasible,  
I had a vision for what I wanted to do

# Planning and Process

STEP 1

STEP 2

STEP 3

Planning,  
Research,  
Initial Sketches,  
Initial Parts Order,  
Software Design

3D Case Modeling,  
Assembly,  
Additional Parts  
Ordering,  
Final Sketch

Final Assembly,  
Software Tweaks  
and Additions

# Planning and Research

- Drew quick sketches to get general flow down
- Researched current technologies and capabilities
- Identified offline maps as primary concern

Stephen Maciolek (FlightAware)  
Apr 11, 13:05 CDT

Hello Nicholas,

This seems like it would be possible. I have found a few posts on our discussion board about making a portable PiAware. <https://discussions.flightaware.com/search?q=portable%20piaware%20category%3A9>

More specifically a post here might be helpful. <https://discussions.flightaware.com/t/using-piaware-as-portable-ads-b-tracker/18295>

Please let me know if you have any questions. The community on the discussion board are very active and helpful if you would like to post there as well.

Regards,  
Stephen

Stephen Maciolek (FlightAware)  
Apr 10, 14:38 CDT

Hello Nicholas,

Thank you for contacting FlightAware. This would not make the PiAware inoperable, but you would have times that you would not be receiving or sending data. There is an option to have an ethernet cable run to your Pi if that is an option for you. But overall, you would still be contributing greatly to the FlightAware community and enjoy the benefits when your PiAware is online.

Let me know if you have any questions.

Regards,  
Stephen

Apr 10, 13:03 CDT

I am thinking of setting up a PiAware system, but the setup I am thinking about may not have WiFi connection constantly. Would this make the system inoperable?

This email is a service from FlightAware.

Email Chain from 2018 with FlightAware

# Initial Sketch

# Initial Parts Order

Distributor	Product	Price
Amazon	6" USB Extension Cable	\$4.99
Amazon	Geekworm x728 PSU	\$50.89
Amazon	Stratus ADS-B Antenna	\$9.99
Pishop.US	Raspberry Pi Touchscreen	\$76.90
eBay	FlightAware Pro Stick Plus	\$39.99

Adafruit

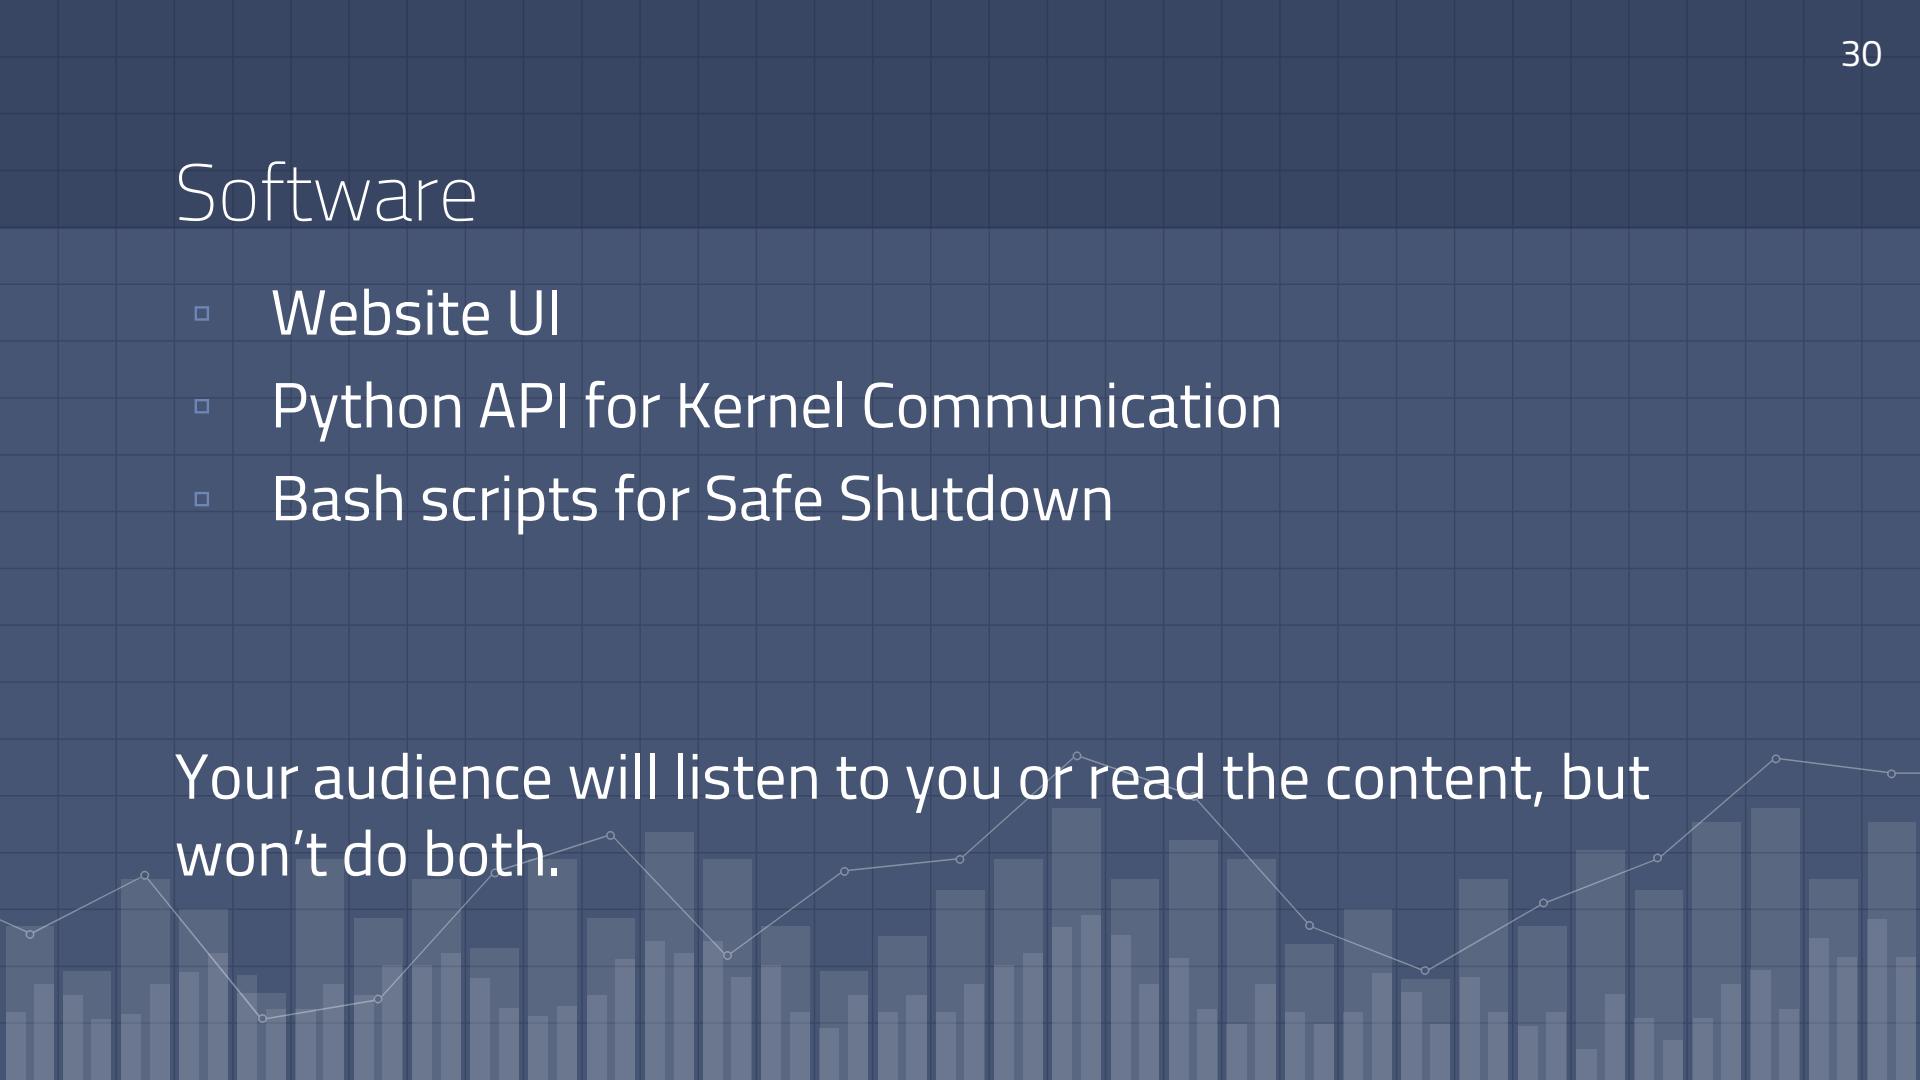

Raspberry Pi 4B – 2GB

# Software

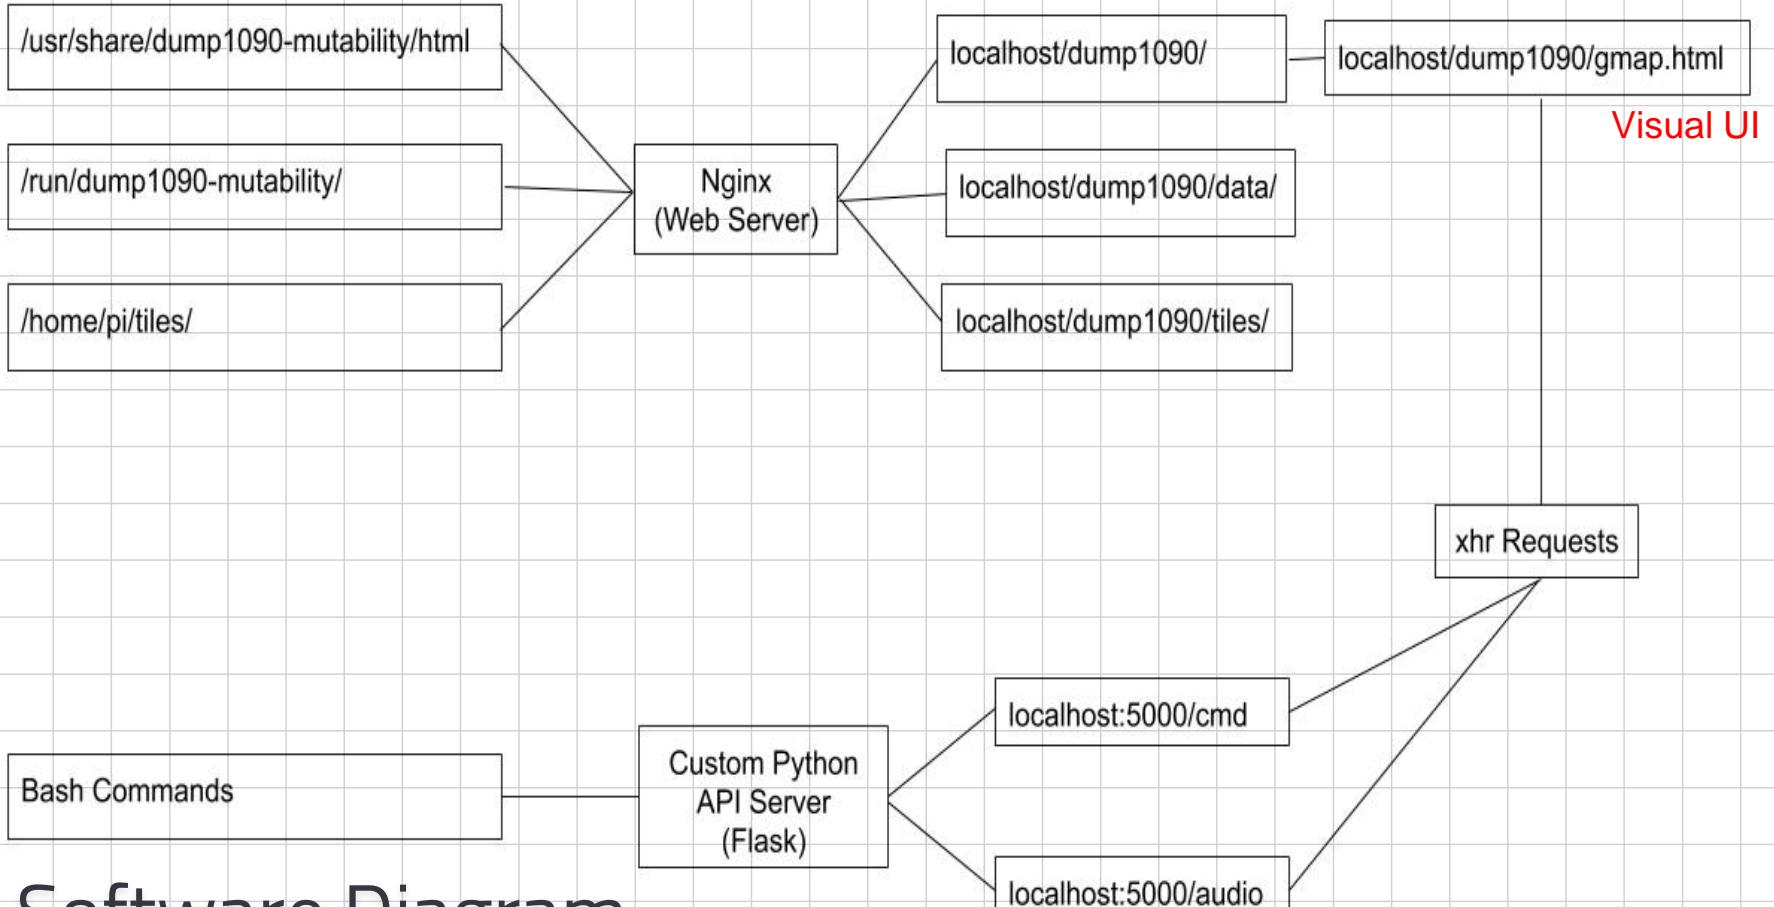

- Website UI
- Python API for Kernel Communication
- Bash scripts for Safe Shutdown

Your audience will listen to you or read the content, but won't do both.

# Code Makeup By Language

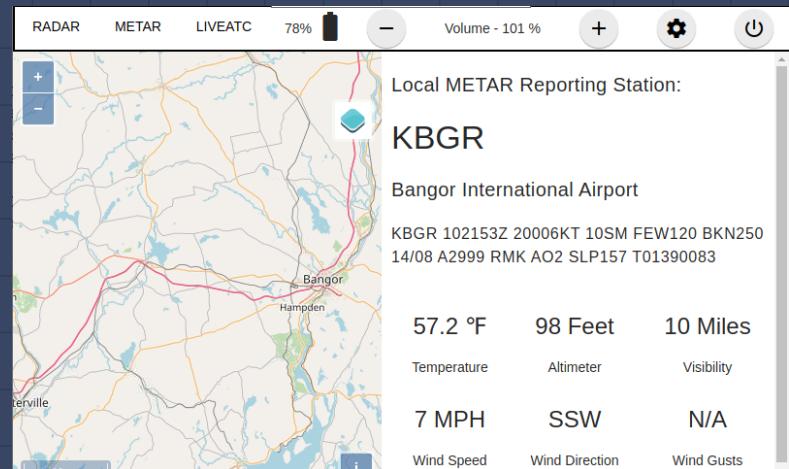

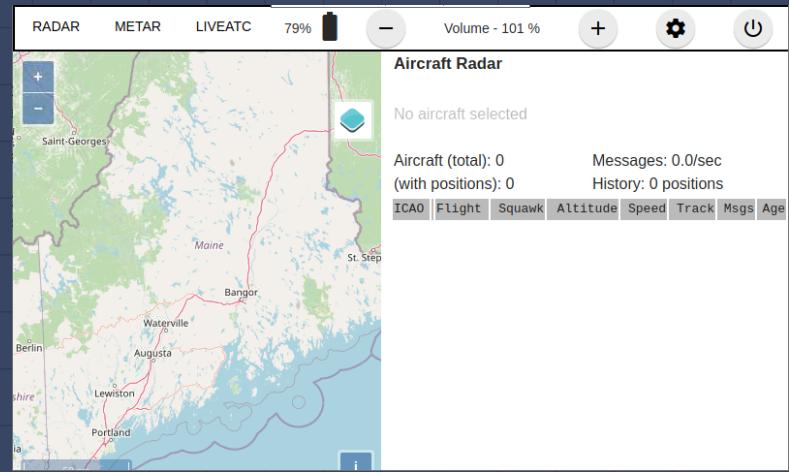

# Software Diagram

# dump1090 Web Interface

- Basic Design Already Existed
- Elaborated and added METAR and LiveATC functionality
- Implemented device specific functions as well

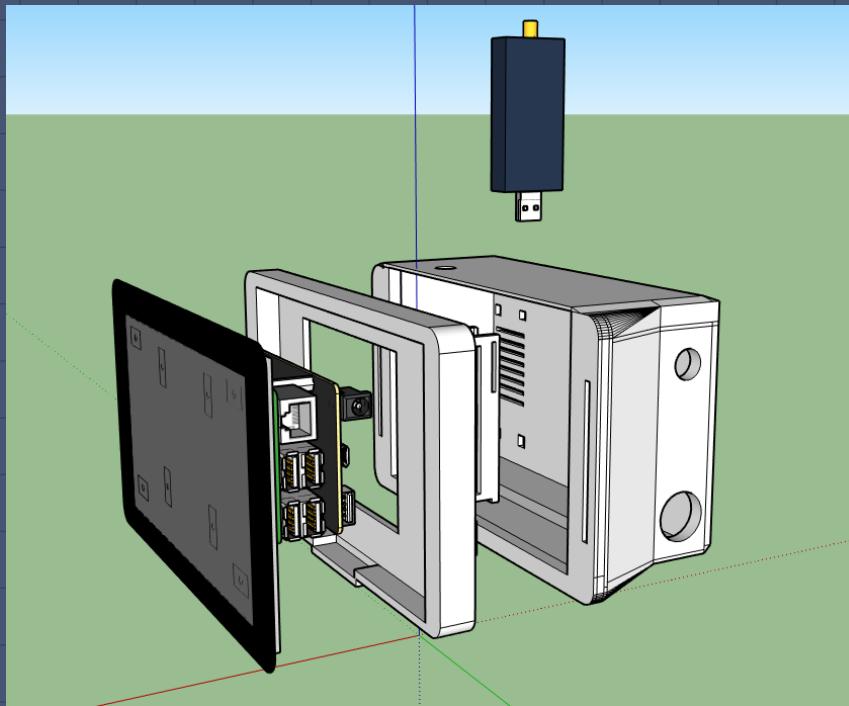

# Python API Server

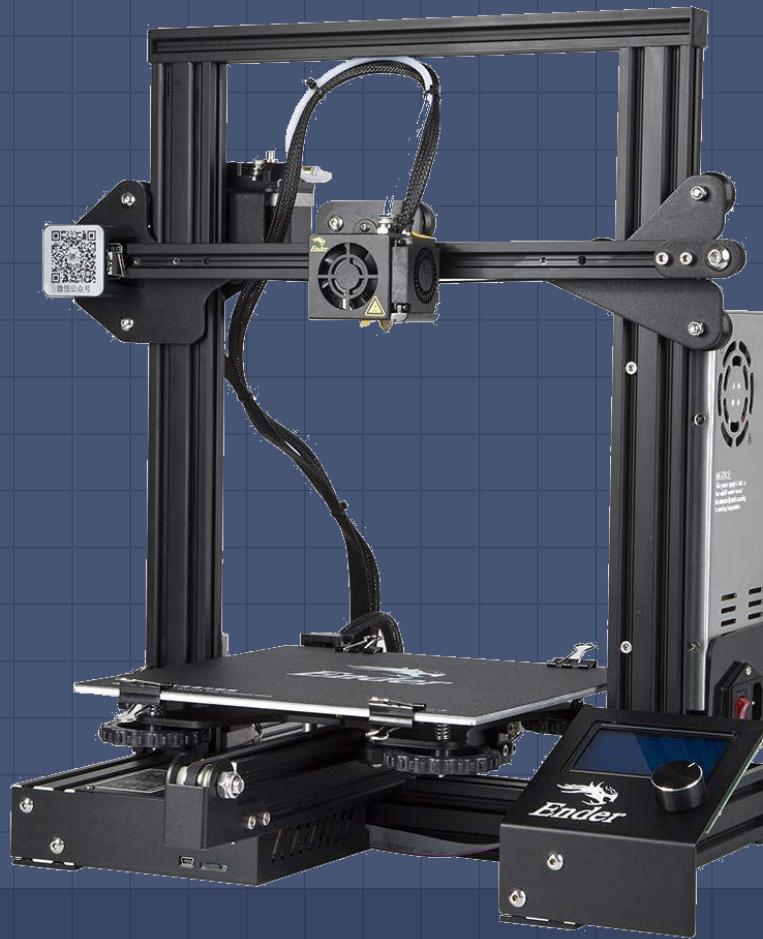

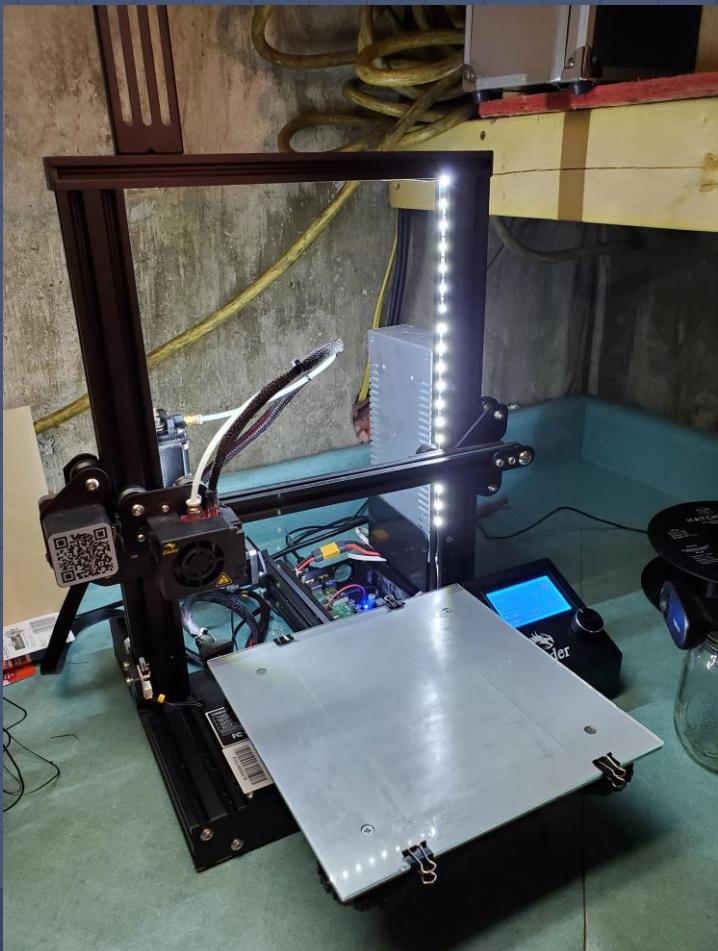

- Bridges gap from website
- Allows UI to control volume, update, change version, shutdown

# LiveATC Crawler

- Input: List of Every Airport in the World
- Output: List of the audio stream URL's of every airport in the USA
- Uses LiveATC for information

# 3D Modeling

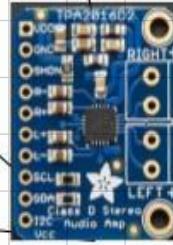

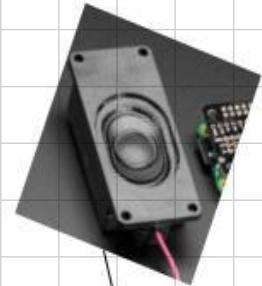

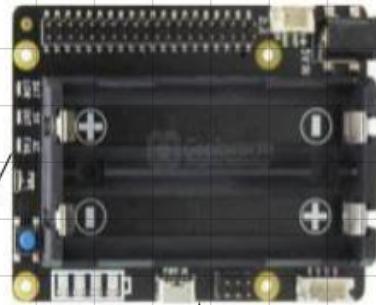

# 3D Printing

# Additional Parts

Distributor	Product	Price
Amazon	Ender 3 3D Printer	\$206.99
Amazon	Geekworm 19MM Button	\$9.89
Amazon	USB Type A to 5.5x2.1 DC	\$7.69
Amazon	USB 90 Degree Right Ang.	\$6.99
Amazon	Cooling Fan	\$7.99
Amazon	Right Angle USB Cable	\$9.99
18650 Battery Shop	2 x Samsung 50E	\$11.98

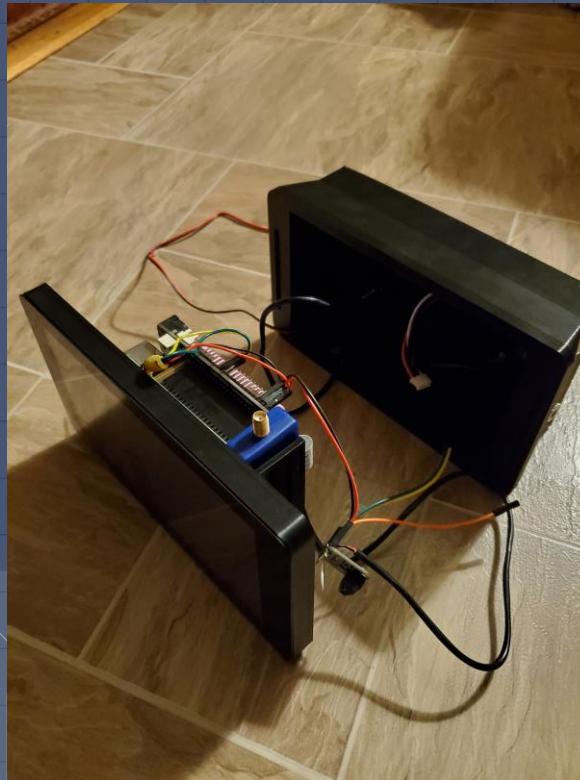

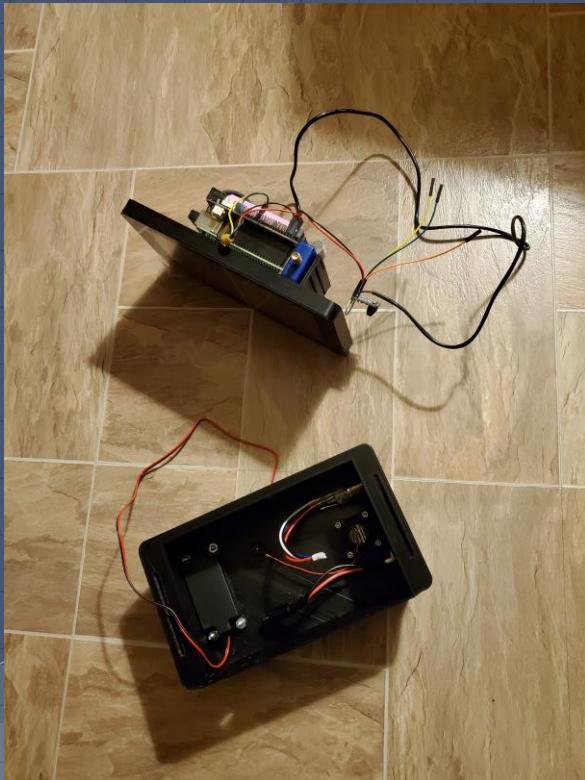

## Additional Parts (Continued)

Distributor	Product	Price
Adafruit	3.5mm Stereo Plug to Pigtail Cable	\$1.95
Adafruit	Stereo Enclosed Speaker	\$7.50
Adafruit	TPA2016 Audio Board	\$9.95
Adafruit	Jumper Wires	\$4.55
Amazon	DC Panel Mount Connector	\$12.99
Aubuchon	Various Nuts and Bolts	\$3.99
Aubuchon	Soldering Iron	\$17.99

## Institute of Technology

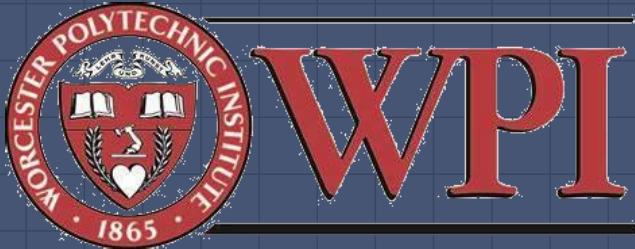

- Downtown Boston
- Great C.S. Program
- Live on Campus
- AFROTC Scholarship
- Avg Cost: \$53,390 / Year

# EMBRY-RIDDLE AERONAUTICAL UNIVERSITY

- Daytona Beach, FL
- C.S, E.E, and Aeronautical Degrees
- Live on Campus
- AFROTC Scholarship and Air National Guard
- Avg Cost: \$37,960 / Year

- Worcester, MA
- Technical Institute, C.S and E.E degrees.
- Live on Campus
- AFROTC Scholarship
- Avg Cost: \$53,830 / Year

# HOFSTRA UNIVERSITY®

- Suburban New York City
- 244 Acre Campus
- AFROTC Scholarship
- Good C.S. Program
- Avg Cost: \$63,748 / Year

# NORWICH UNIVERSITY®

- Northfield, VT
- Senior Military College
- AFROTC Scholarship
- Good C.S, E.E and Cyber Programs
- Avg Cost: \$42,950 / Year

# THE UNIVERSITY OF MAINE

- Downtown Orono
- Army ROTC Program
- Good C.S. and Electrical Engineering Programs
- Double Major Friendly
- Guard Payment Plans
- Avg Cost: \$19,103 / Year

# Scholarship Options

1. Air National Guard Tuition Waiver + G.I Bill + G.I Bill Kicker
2. Air Force ROTC Scholarship
3. Army National Guard Tuition Waiver + G.I Bill + G.I Bill Kicker
4. Pulp and Paper Scholarship
5. Maine State Science Fair Scholarship

# Air National Guard Tuition Waiver + G.I Bill + G.I Bill Kicker

- UMO and Emery-Riddle Only
- Nearly 100% of College Paid For
- 6 Years of Service
- Guaranteed upon enlistment

# Air Force ROTC (AFROTC) Scholarship

- Hofstra, Wentworth, Worcester, Embry-Riddle, Norwich only
- 75% - 100% of College Paid For
- 4 Years on Active Duty
- Must apply for scholarship

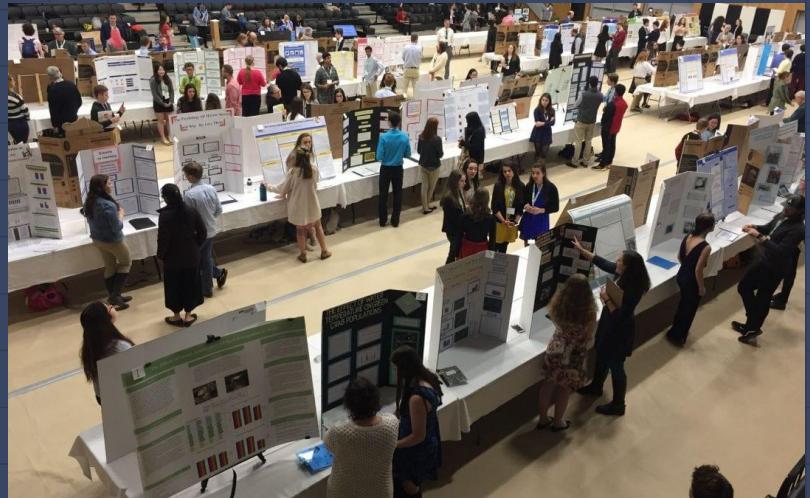

# University of Maine Pulp and Paper Foundation

- UMO Only
- Full and Partial Tuition Scholarships
- Requires internships at paper mills in Maine

# Maine State Science Fair Scholarship

- UMO Only
- Full Tuition, Honors College Acceptance, Research Budget
- 12 Awarded

# INSTRUCTIONS FOR USE

## EDIT IN GOOGLE SLIDES

Click on the button under the presentation preview that says "**Use as Google Slides Theme**".

You will get a copy of this document on your Google Drive and will be able to edit, add or delete slides.

**You have to be signed in to your Google account.**

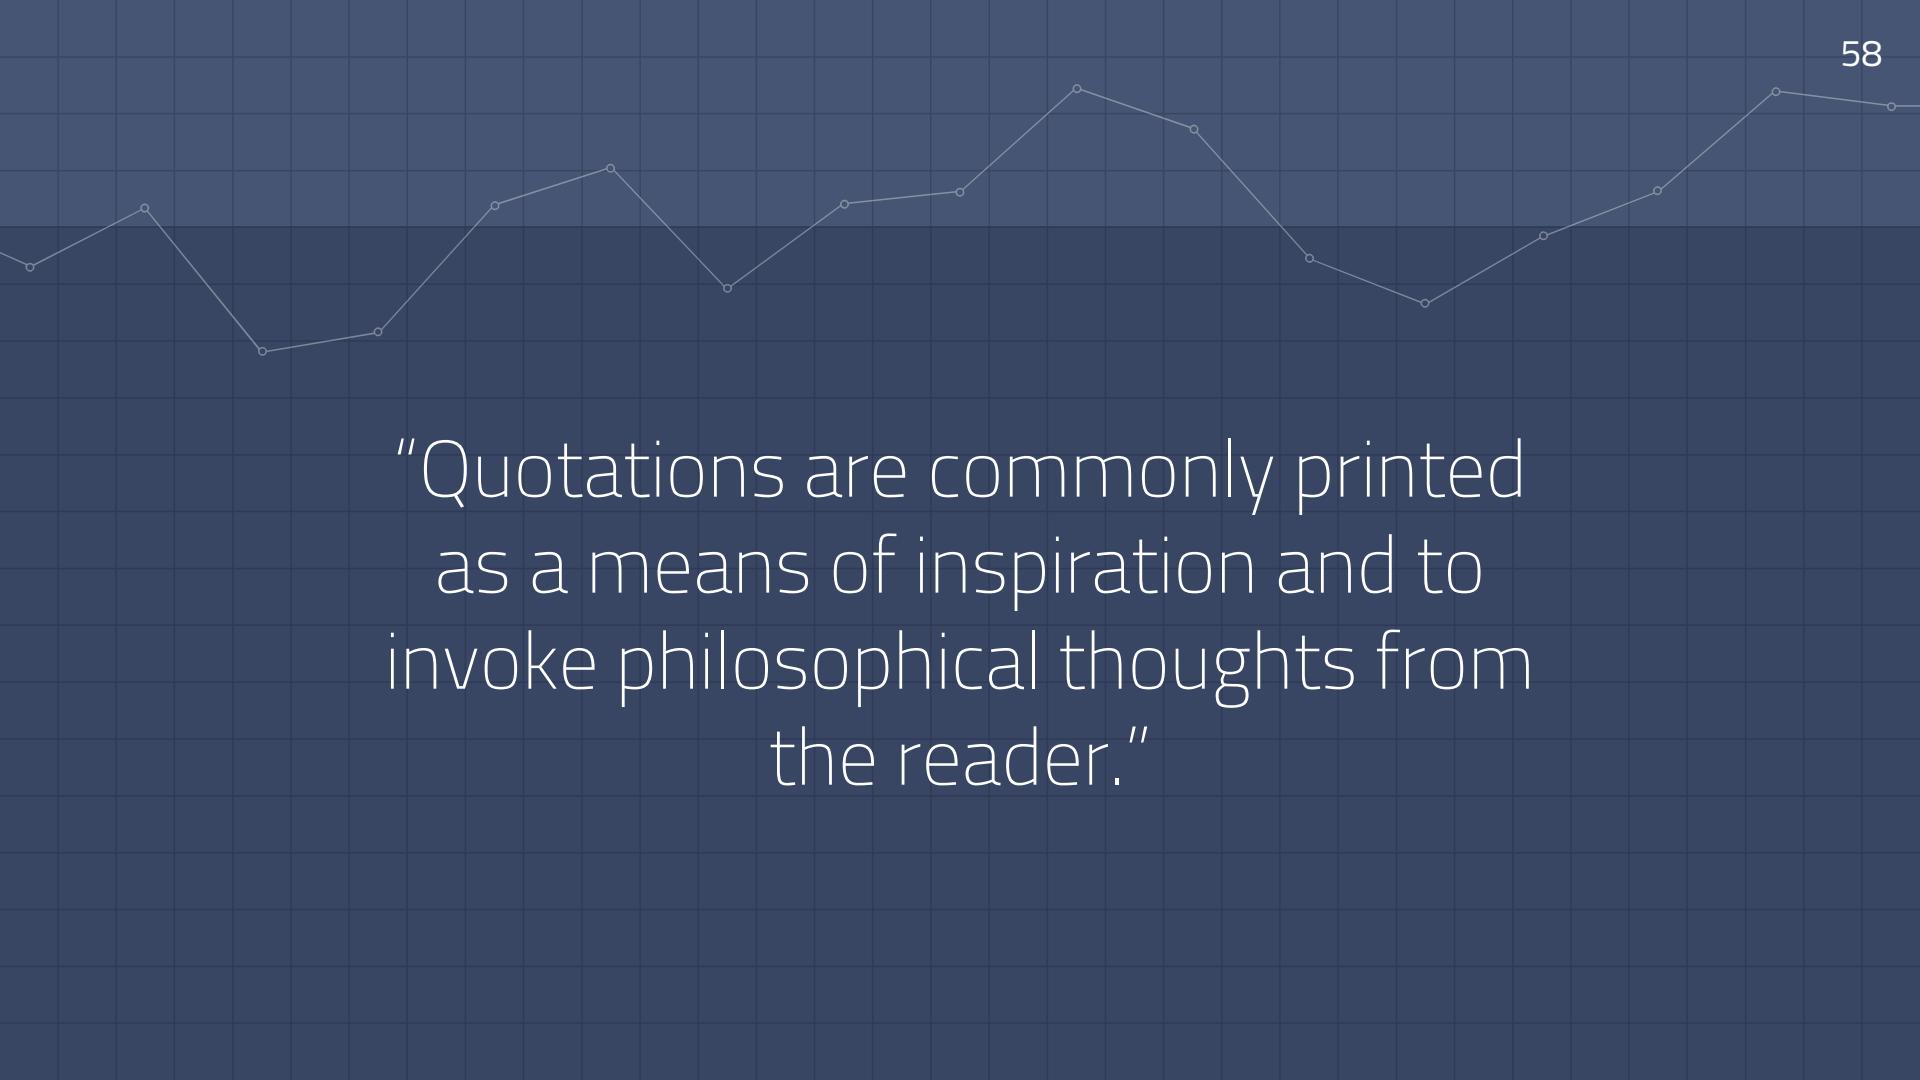

**More info on how to use this template at [www.slidescarnival.com/help-use-presentation-template](http://www.slidescarnival.com/help-use-presentation-template)**

This template is free to use under Creative Commons Attribution license. You can keep the Credits slide or mention SlidesCarnival and other resources used in a slide footer.

## EDIT IN POWERPOINT®

Click on the button under the presentation preview that says "**Download as PowerPoint template**". You will get a .pptx file that you can edit in PowerPoint.

Remember to download and install the fonts used in this presentation (you'll find the links to the font files needed in the Presentation design slide)

“Quotations are commonly printed  
as a means of inspiration and to  
invoke philosophical thoughts from  
the reader.”

# TRANSITION HEADLINE

Let's start with the first set of slides

# THIS IS A SLIDE TITLE

- Here you have a list of items
- And some text
- But remember not to overload your slides with content

Your audience will listen to you or read the content, but won't do both.

# BIG CONCEPT

Bring the attention of your audience over a key concept using icons or illustrations

# IN TWO OR THREE COLUMNS

## Yellow

Is the color of gold, butter and ripe lemons. In the spectrum of visible light, yellow is found between green and orange.

## Blue

Is the colour of the clear sky and the deep sea. It is located between violet and green on the optical spectrum.

## Red

Is the color of blood, and because of this it has historically been associated with sacrifice, danger and courage.

# A PICTURE IS WORTH A THOUSAND WORDS

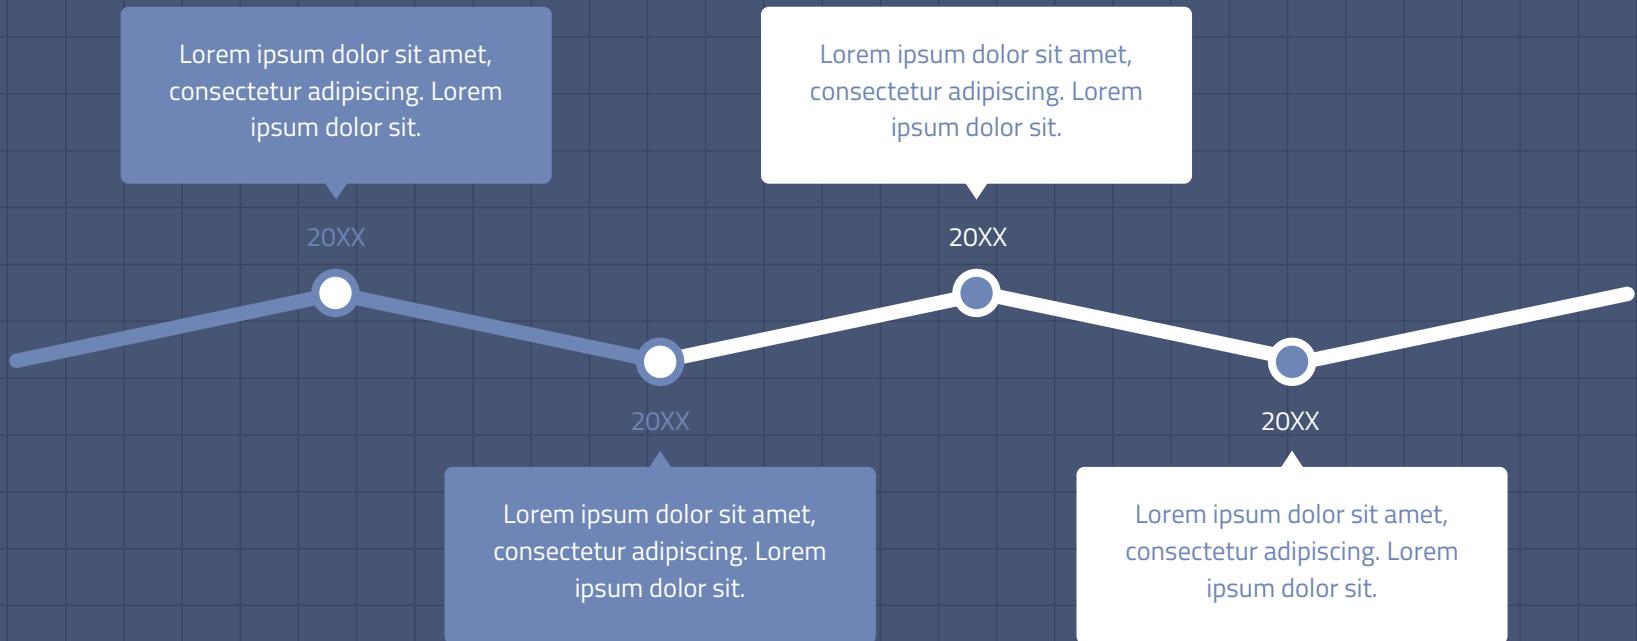

A complex idea can be conveyed with just a single still image, namely making it possible to absorb large amounts of data quickly.

WANT BIG  
IMPACT?  
USE BIG IMAGE.

# USE DIAGRAMS TO EXPLAIN YOUR IDEAS

# AND TABLES TO COMPARE DATA

	A	B	C
Yellow	10	20	7
Blue	30	15	10
Orange	5	24	16

# MAPS

67

89,526,124

Whoa! That's a big number, aren't you proud?

89,526,124 \$

That's a lot of money

185,244 users

And a lot of users

100%

Total success!

# OUR PROCESS IS EASY

# LET'S REVIEW SOME CONCEPTS

## Yellow

Is the color of gold, butter and ripe lemons. In the spectrum of visible light, yellow is found between green and orange.

## Yellow

Is the color of gold, butter and ripe lemons. In the spectrum of visible light, yellow is found between green and orange.

## Blue

Is the colour of the clear sky and the deep sea. It is located between violet and green on the optical spectrum.

## Blue

Is the colour of the clear sky and the deep sea. It is located between violet and green on the optical spectrum.

## Red

Is the color of blood, and because of this it has historically been associated with sacrifice, danger and courage.

## Red

Is the color of blood, and because of this it has historically been associated with sacrifice, danger and courage.

# YOU CAN ALSO SPLIT YOUR CONTENT

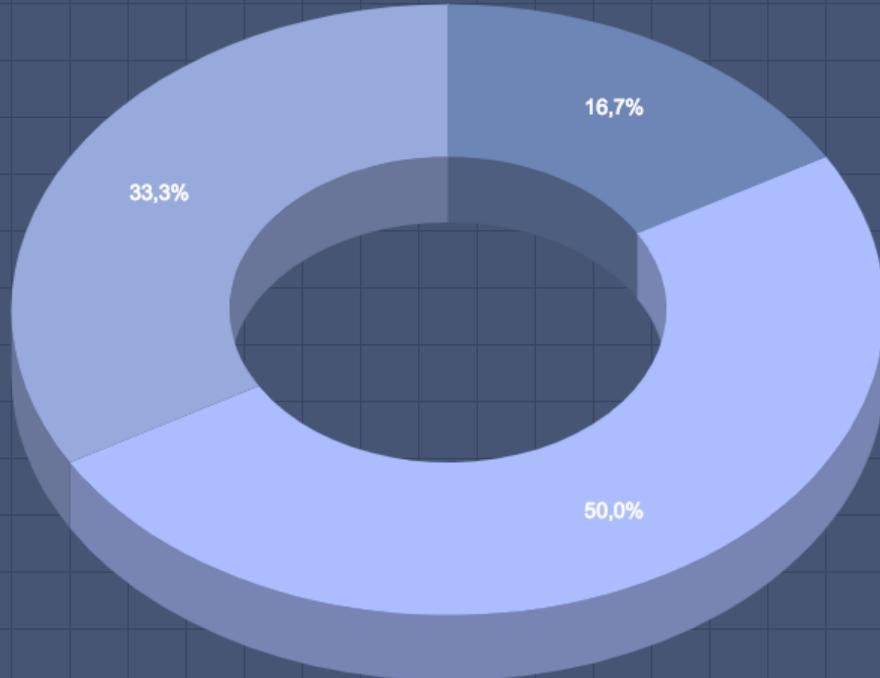

## White

Is the color of milk and fresh snow, the color produced by the combination of all the colors of the visible spectrum.

## Black

Is the color of ebony and of outer space. It has been the symbolic color of elegance, solemnity and authority.

- Photographs by [Unsplash](#)

# PRESENTATION DESIGN

This presentation uses the following typographies and colors:

- Titles: Titillium Web ExtraLight
- Body copy: Titillium Web

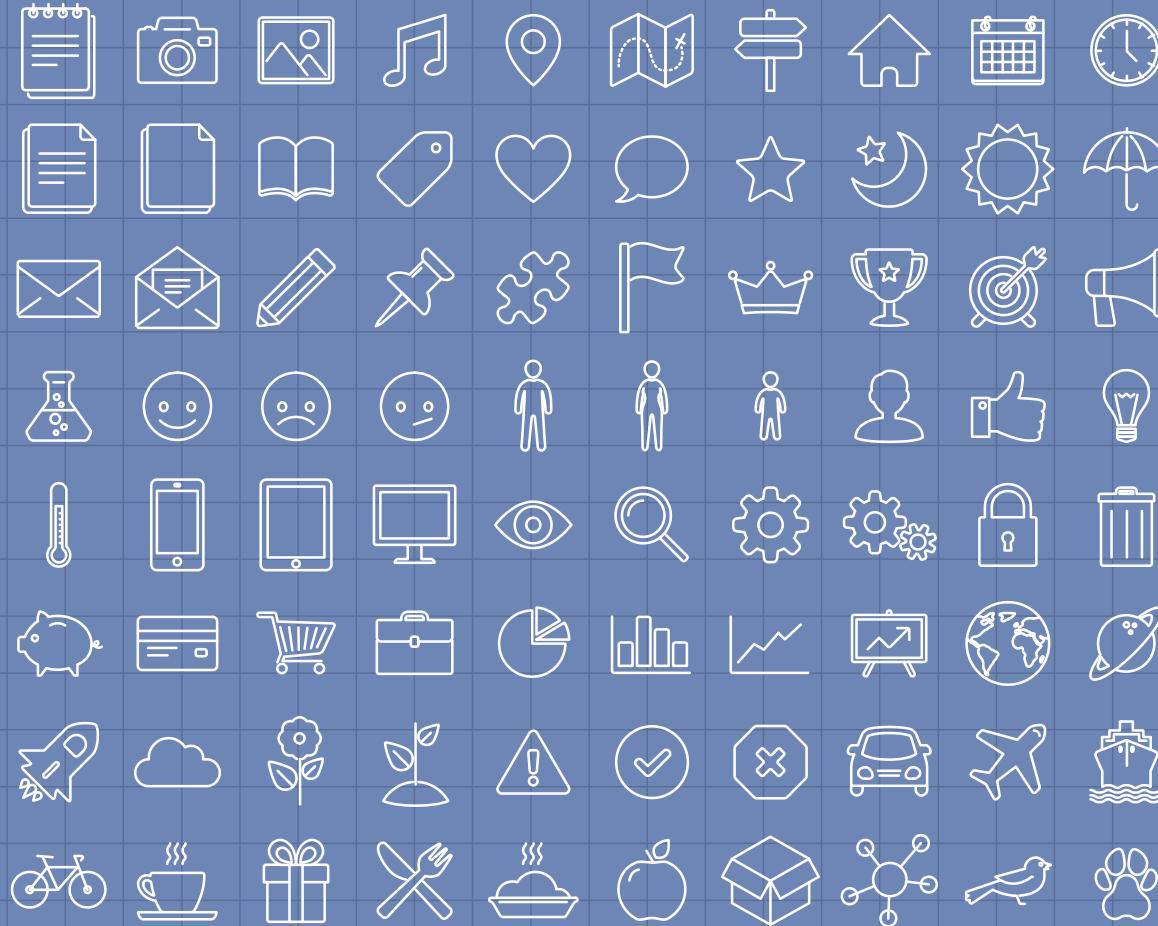

You can download the fonts on this page:

<https://www.fontsquirrel.com/fonts/titillium>

Bluish gray #6e86b6 · Dark bluish gray #465573

You don't need to keep this slide in your presentation. It's only here to serve you as a design guide if you need to create new slides or download the fonts to edit the presentation in PowerPoint®

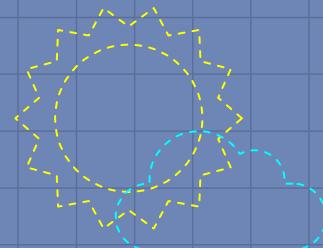

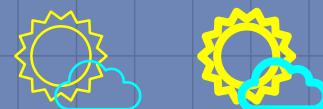

SlidesCarnival icons are editable shapes.

This means that you can:

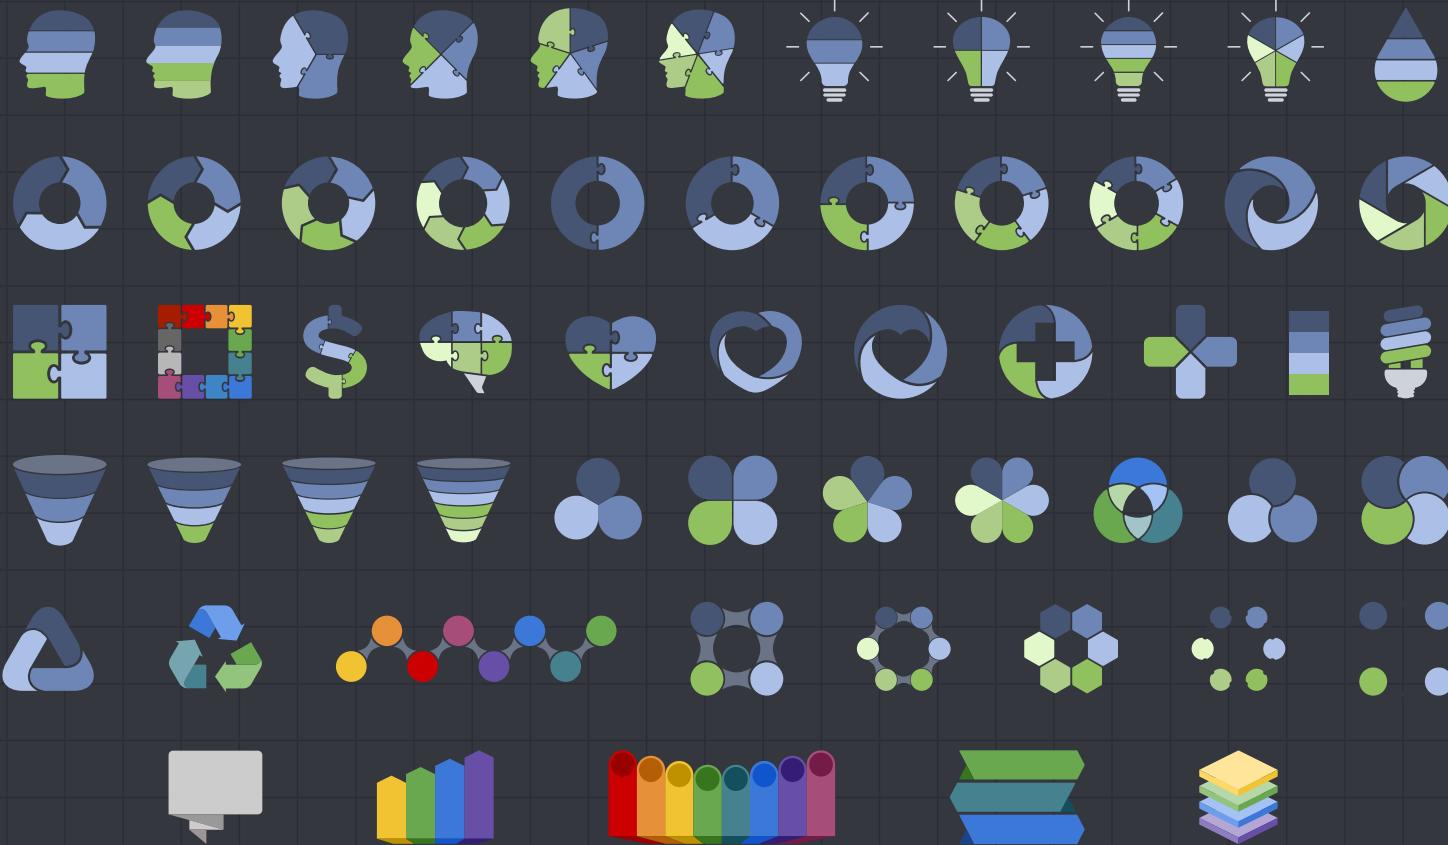

- Resize them without losing quality.
- Change line color, width and style.

Isn't that nice? :)

Examples:

# Diagrams and infographics

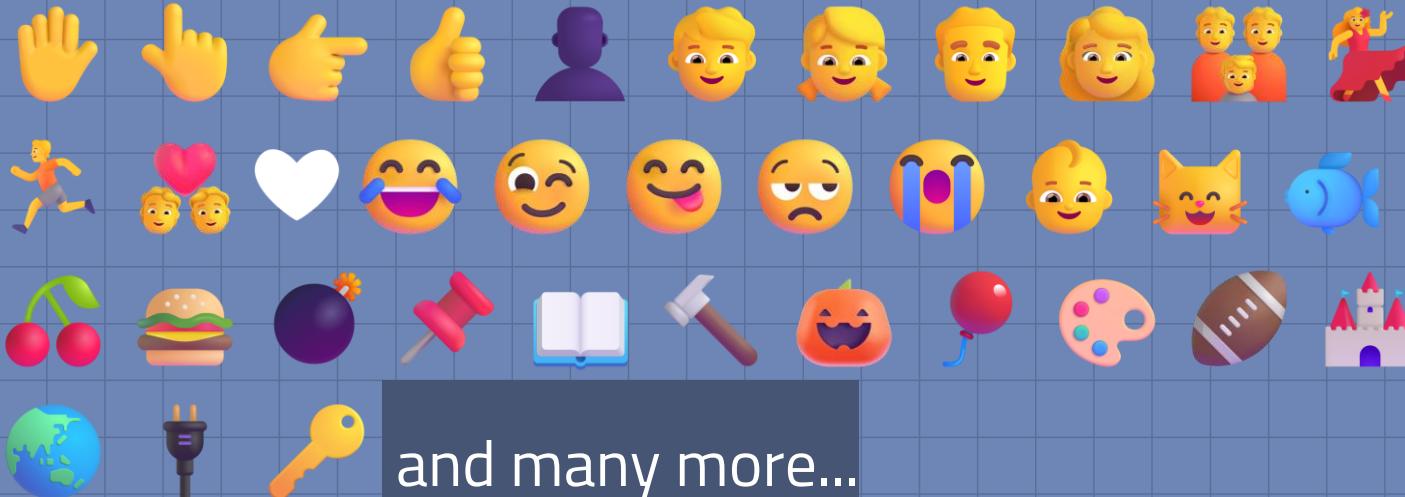

Now you can use any emoji as an icon!  
And of course it resizes without losing quality and you can change the color.

How? Follow Google instructions

<https://twitter.com/googledocs/status/730087240156643328>
